

WISCONSIN OFFICE OF EMERGENCY COMMUNICATIONS

NG9-1-1 GIS Educational Sessions

March 2021

ABOUT THE MEETINGS

Please join the Office of Emergency Communications (OEC), GeoComm, and AppGeo, Inc. for the 2021 NextGen9-1-1 GIS Educational Sessions! The purpose of these sessions is to provide a brief overview of the Wisconsin OEC and the NextGeneration9-1-1 (NG9-1-1) program, provide information on the statewide GIS Data Assessment, and training on the recently published NG9-1-1 GIS Standards and Best Practices Guide. These meetings will be important to communicate with all stakeholders that are involved in 9-1-1 services in Wisconsin on the anticipated changes coming with GIS data for NG9-1-1.
