Column Definitions:

NUMBER Code	Counties are sequentially numbered in alphabetical order; the basis for the numbering plans
ALPHA Code	Two character county alpha code derived from TIME system mnemonic
MARC On	DTMF (Touchtone) activation code for MARC repeater
MARC Off	DTMF (Touchtone) deactivation code for MARC repeater
KID/LID	Key ID (digital) / Logical ID (analog) for encryption, in Hex format
P25 NAC Primary	Primary Project 25 digital conventional system Network Access Code in Hex format
P25 NAC Alternate	Alternate Project 25 digital conventional system Network Access Codes, if needed, in Hex
P25 Radio ID Range	Project 25 digital radio identification number range in Decimal format
P25 Talkgroups	Project 25 digital talkgroup number range in Decimal format

Provide actual usage information to State Frequency Coordinator for inclusion in state interoperability database.
