Incident Report #9 – August Wisconsin Flooding

August 30, 2018

Contact: State Emergency Operations Center

Phone: 608-888-5328

The National Weather Service has confirmed an outbreak Tuesday of 16 tornadoes in east central Wisconsin on Tuesday evening. NWS is reviewing additional locations. Several trees were uprooted and buildings were damaged. No injuries were reported.

Recovery efforts continue in multiple communities after recent storms brought torrential rainfalls to several parts of the state, causing flooding. Some areas have seen rainfalls of up to 14 inches in the last two weeks. This has caused lake levels to rise in Dane County and pushed portions of the Kickapoo and Baraboo rivers to record levels. Members of the Wisconsin National Guard assisted with sandbagging operations in North Freedom and Baraboo on Thursday.

An additional half inch of rain could fall on parts of the state late Thursday night, while severe storms and up to 2-3 inches of rain are possible through Sunday in southern and eastern Wisconsin. Flash flood watches have also been issued for several Wisconsin counties.

Governor Scott Walker on Wednesday declared a statewide State of Emergency, which directs state agencies to assist local governments in their response to the flooding and allows the Wisconsin National Guard to be called to active duty by the adjutant general if requested. The governor on Thursday visited communities in eastern and southern Wisconsin damaged by storms that produced multiple tornadoes and caused flooding.

Below are the tornadoes from the August 28 storm that have been confirmed by the National Weather Service.

Calumet County and Manitowoc County

An EF-1 tornado touched down Tuesday north of Kiel near the Calumet and Manitowoc County lines, with peak winds reaching 90 mph. The tornado's path was almost a mile long. A barn was destroyed and several trees were damaged and uprooted.

Dodge County

An EF-2 tornado touched down west of Brownsville and traveled almost four miles, crossing the Dodge and Fond du Lac County lines. Peak winds reached 125 mph.

An EF-1 tornado touched down in Brownsville, located in northeast Dodge County. Peak winds reached 107 mph and the tornado traveled more than 2.5 miles.

Fond du Lac County

An EF-1 tornado touched down in the town of Alto. With winds reaching 100 mph, it traveled a little more than a mile. Several trees were uprooted, with damage to some houses, large farm buildings and sheds.

An EF-1 tornado touched down northeast of Waupun and traveled 4.5 miles. It had wind speeds of 94 mph and ended in Oakfield.

An EF-0 tornado touched down south of Oakfield. Peak winds were 80 mph. Two large farm buildings sustained roof damage and trees were uprooted.

An EF-1 tornado touched down west of South Byron. Peak winds reached 100 mph. The tornado traveled just under a mile.

An EF-1 tornado touched down in South Byron. Peak winds reached 94 mph. It traveled 0.15 miles.

An EF-1 tornado touched down east of South Byron, with peak winds reaching 90 mph. It traveled 3 miles, ending southwest of Eden.

An EF-1 tornado touched down near Eden and traveled 4.5 miles with 90 mph winds.

An EF-0 tornado touched down in Dundee with 80 mph winds. It traveled 0.04 miles.

Green Lake County

An EF-1 tornado touched down west of the Village of Marquette. With winds reaching 90 mph, it was on the ground for 3.22 miles.

An EF-0 tornado touched down northwest of Markesan. With wind of 80 miles an hour, it had a path of about 2 miles.

Marquette County

An EF-1 tornado touched down south of Oxford.

An EF-1 tornado touched down northwest of Markesan.

Sheboygan County

An EF-0 touched down in Oostburg and was on the ground for 0.3 miles and produced 80 mph winds.

Private property owners should report flood and storm damage by calling 2-1-1 or 877-947-2211. Make sure to document damage by taking pictures and speak with your insurance agent. Multiple resources designed to help residents with their recovery efforts are being posted online at <http://readywisconsin.wi.gov/flooding/AUG2018.asp>

Several roads throughout the state remain closed due to standing water or because of damage caused by flooding. Drivers are urged to check 511wi.gov for current road closure information, especially if they are traveling during the upcoming Labor Day holiday weekend. If drivers encounter a closed route or standing water on a roadway, turn around and find another route. Do not drive around barricades or through water.

The Statewide Emergency Operations Center is currently elevated as the state monitors the situation and provides assistance to local emergency responders as requested.
